

Here are our bullet points for hospitality!

- Maintain current and create new collaborations between the hospitality committee and other church committees. (RIC sub-committee currently)
- Support the strategic plan mission of welcoming others internally and externally by establishing a welcoming presence at church events and providing information about our church to the community (at events like Music Mondays, Holy Cow dinners) and new church attendees.
- Continue to develop new ways to be welcoming and accepting of all people.

If we have the chance for an ask from the board- we would like a washer and dryer at each location for events, so members are not burdened with lugging laundry around.
